### ACCESSING VENDОВI ISLAND

Vendovi Island is accessible by private boat, water taxi, and human-powered watercraft such as sea kayaks. There is a 70-ft. dock protected by a breakwater inside the north cove. ALL vessels, including skiffs and kayaks, must either dock or land at the north cove. Dock space is first come, first served. Anchoring inside breakwater is not allowed, for protection of nearshore habitat.

Several commercial water taxi companies based in Anacortes and Bellingham will make stops at Vendovi. Sea kayakers should be aware of potentially rough crossings from both the southwest (Guemes Island) and the northeast (Bellingham Bay).
